Hi. Yes, we are still planning for a quarterly meeting on June 18. I'm sorry that I haven't caught up with you to at least debrief from the March meeting that I missed. How about I schedule a meeting with you and me and Jesse in the next few weeks to plan for the June meeting?

Subject: VB/I-70 CAG

Dear all:

I am assuming that for now your request for me on Vasquez Boulevard is really limited to facilitating quarterly meetings. However, it is obvious that there are tensions at the surface among some of the community members- but I'm not clear on exactly what those are. There seems to be some assumption or perception that the EPA is hiding information from the community or being less than forthcoming with the community - hence repeated questions from meeting to meeting.

I wonder if there would be any benefit to asking the CAG, or via a facilitator interview with the CAG, to expressly identify in writing what those complaints are. The hope would be this would get out of the problem of vague complaints and would also permit the EPA to specifically and briefly respond to the specific complaint in writing. Let me know if you think this idea should be discussed.

Subject: March 19 Quarterly meeting VB/I-70

Hi. Attached is the final agenda and presentation for the March 19 Quarterly Meeting. Jesse, I left the wrap up slide at the end as is because even though those public comment opportunity dates are far off, the group seemed happy with that slide last time to give them some sense of timing.

Some of the things that I would normally do prior to this meeting may not get done because I'm going to be out – sorry:

1. Advertising – I am not sure if we can get the ad in Denver Your Hub, but I will see for sure about that tomorrow. I have sent an email invitation to the entire stakeholder list, not just the CAG and Kara is putting an ad in the area Next Door account. (The CAG should be helping get the word out...)
2. Agenda – In the future, and if it comes up, I am happy to coordinate with the CAG on our agenda by sending it to Kim to distribute to the CAG for input. I am just out of time to collect any comments or go back and forth with them. So, please let them know that if they bring it up.

3. Materials/handouts – Could someone please bring copies of the agenda (and also a sign in sheet) to the meeting? Also, someone will need to bring a laptop and a projector with the attached presentation. Also, Jesse, just a reminder to be prepared to pull up our site website and show them how to comment if they want to do it that way.
4. Translation – the same wonderful translators are all set to attend. I'll double check with them tomorrow.
5. Pre-meeting call- Monday at 9.

Good luck!

-jc

Jennifer Chergo
